

ASSIGNMENT – 02

Student Admission Enquiry Form (Advanced)

Name: Roshan Bright R

Register No: 240701439

1. Objective

To extend Admission_Enquiry_Form in Zoho Creator using all 17 Advanced Fields for school verification, sibling details, fee calculation, media upload, consent, enquiry ID, and QR-code tracking.

2. Steps

1. Open Zoho Creator and the existing application.
2. Open Admission_Enquiry_Form in Form Builder.
3. Add Sections E–H and all 17 Advanced Fields.
4. Create Schools master form and connect School_Name_Lookup.
5. Create Sibling_Details SubForm with 0–3 rows.
6. Configure file, image, video, percent, currency, and mandatory validations.
7. Add Formula, Auto Number, Date-Time, and QR/Barcode fields.
8. Preview, submit two records, and open Admission_Enquiry_Report.

3. Advanced Fields

Decision Box, Rich Text, URL, Image, Percent, Currency, Decimal, Date-Time, SubForm, Lookup, Signature, File Upload, Audio, Video, Auto Number, Formula, and QR/Barcode.

4. Formula

$$\text{Net_Application_Fee_Payable} = \text{Application_Fee_Paid} - (\text{Application_Fee_Paid} \times \text{Scholarship_Eligibility_Percent} \div 5)$$

Use the formula specified in the assignment and confirm its intended interpretation with the faculty if required.

5. Pictures

The screenshot shows the Zoho Creator interface for configuring a form. On the left, the 'Basic Fields' panel lists various field types: Name, Email, Address, Phone, Single Line, Multi Line, Number, Date, Drop Down, Radio, Multi Select, and Checkbox. The main area displays a form layout with two sections: 'Personal Details' and 'Dependent Details'. The 'Personal Details' section includes fields for Name, Address, Photo, Bio, Mobile Number, and Email. The 'Dependent Details' section includes fields for Name, Phone Number, and Date of Birth. On the right, the 'Field Properties' panel for the 'Name' field is shown, with options for Field name, Field link name, Validation (Mandatory), Display Fields (Prefix, First Name, Last Name, Suffix), and Permission (Show field to: Everyone).

Figure 1

The screenshot shows the 'Calculate Expression' dialog box in Zoho Creator. The dialog has two main sections: 'Expression' and 'Refer Fields'. The 'Expression' section contains the formula: `if(Product.Price != null && Quantity != null, Product.Price * Quantity, 0)`. The 'Refer Fields' section lists the fields used in the expression: Product, Quantity, and Subtotal. Below the dialog, the 'Field Properties' panel for the 'Product' field is visible, showing options for Field name, Field link name, Display Fields (Product Name), Display type (Drop Down), Validation (Mandatory), and Choices (Allow new entries, Alphabetical Order, Set filter).

Figure 2

6. Result

The form was designed with the required advanced fields, validations, lookup, subform, fee formula, automatic enquiry ID, and QR-code tracking. Attach actual Zoho Creator screenshots before submission.
